Licensed Cadastral Surveyor or Survey Technician Orewa, North Auckland

Cato Bolam is a leading professional consultancy providing start-to-end solutions for housing, land development, subdivision and infrastructure projects. Our company purpose is “Creating Great Places” and that is what we strive to achieve – for our clients, our communities, and our environment.

The Opportunity

We have an exciting opportunity in our Orewa office for an experienced Survey Technician or Licensed Cadastral Surveyor to work with our high performing survey team delivering all aspects of surveying for a wide range of projects rural, urban and commercial. Being located on the urban fringe of Auckland, you can avoid the traffic and live close to the country while enjoying work in both rural and urban surveying environments to support our broad client base. Recent urban legacy projects include; Huapai Triangle, Huapai Country Club, Fairway Bay, Riverhead South and the iconic waterways at Whitianga and Marsden Cove. This a great opportunity to join one of NZ’s leading survey companies.

A career at Cato Bolam gives, not only the opportunity to continue your professional development, but to be part of a team of professionals from other disciplines leading projects from concept to completion in a supportive work environment. We are committed to investing in our people and creating high performers. We provide personal development plan support and mentoring to help you grow and take the next step.

About Us

Cato Bolam, established in 1972, is a multi-disciplined professional service business and our team of 80+ located across four offices in Auckland and Northland has a proud reputation for delivering high quality services and outcomes. We offer a friendly, flexible working environment and a salary package that is attractive and targeted at the experience and potential of the applicant

About You

Our ideal candidate would be locally based with NZ experience in all aspects of cadastral and land development surveying for urban, rural or infrastructure projects. Experience working in a multi-discipline environment and familiarity with the surveying inputs to land development projects will be an advantage.

It is important that you have excellent communication skills and are comfortable working both autonomously and collaboratively depending on the project.

Manukau
