Engineering Draughtsperson

Cato Bolam is a leading land development consultancy providing “start-to-end solutions” for land development, subdivision and land use projects, large and small. Our services include planning, surveying, engineering, architecture, environmental and project management.

With more than four decades of experience we have built a reputation for providing dependable, best quality professional services, in a friendly and approachable way. We set high standards for all aspects of our work, and clients trust us to deliver. In an environment of ever-increasing complexity, our job is to make the complex simple, to communicate well and to achieve first-class solutions for our clients. We listen to our client's needs, understand those needs, and go beyond client expectations to deliver innovative and sustainable design solutions.

At Cato Bolam our people are our strength. Our purpose is creating great places. Our aim is to create built and natural environments that are great places for people, communities and which create a better future.

We are a friendly team of professionals who are supportive of each other and work collaboratively whilst having fun along the way.

The Opportunity

We have an exciting opportunity in our Orewa office for a land development engineering draughtsperson to join our high performing engineering team. You will have the opportunity to work collaboratively and autonomously on a wide range of residential, rural and commercial developments and legacy projects such as master planned communities and retirement developments.

About You

Ideally you would be locally based and have experience in the draughting of all aspects of land development engineering plans for resource consent and construction purposes. You will also assist with other draughting including the preparation of residential and rural concept and subdivision plans. You will have the ability to focus, meet project timelines and have an attention to detail and presentation. It is important that you have a “can do” attitude and are a team player who works well in a collaborative environment.

The draughtsperson we seek will have a sound knowledge and experience in all or most of the following:-

- Land Development Engineering
- 12d (preferred but not essential) or similar civil design software
- 12d Synergy (an advantage)
- AutoCad

Manukau

15 Osterley Way
