Intermediate Engineer or Surveyor (Land Development) Manukau Office

Cato Bolam is a leading land development consultancy providing “start-to-end solutions” for land development, subdivision and land use projects, large and small. Our services include planning, surveying, engineering, architecture, environmental and project management.

With more than four decades of experience we have built a reputation for providing dependable, best quality professional services, in a friendly and approachable way. We set high standards for all aspects of our work, and clients trust us to deliver. In an environment of ever-increasing complexity, our job is to make the complex simple, to communicate well and to achieve first-class solutions for our clients. We listen to our client's needs, understand those needs, and go beyond client expectations to deliver innovative and sustainable design solutions.

At Cato Bolam our people are our strength. Our purpose is creating great places. Our aim is to create built and natural environments that are great places for people, communities and which create a better future.

We are a friendly team of professionals who are supportive of each other and work collaboratively whilst having fun along the way.

The Opportunity

We have an exciting opportunity in our Manukau office for an Intermediate land development engineer to join our high performing engineering team who are key in the delivery of a wide range of projects across South Auckland. We have an opportunity to work collaboratively and autonomously on a wide range of residential, rural and commercial developments and expand your engineering horizons.

About You

Ideally you would be locally based and have NZ experience in all aspects of land development civil engineering; consent and construction phase design, civil contract tendering & management, stakeholder engagement and project management. It is important that you have exceptional communication skills and ideally with some experience with managing both external clients and internal stakeholders.
